Standard Chartered is the first bank in the Kingdom, through our acquisition of ANZ Grindlays Bank and their earlier acquisition of the "Ottoman Bank" whose operations started in 1925. With a 93 year history in Jordan, we remain deeply committed to growing and investing in our franchise. Our brand is about commitment. We're Here for good.

The bank differentiates itself in Jordan through its ability to leverage its international expertise to introduce new, innovative products and services to its customers; significantly enhancing our ability to provide the right products for our customers and enable them to grow.

Our Corporate and Institutional Clients, also known as corporate banking, serves large companies, financial institutions and government agencies, with a focus on trade finance, cash management, capital raising and corporate finance. It concentrates on building long-term relationships with clients to support their growth. We also play a key role in developing infrastructure.

In 2014, we identified a gap in the Jordanian market for an international custody provider that can service the increasing international needs of the market. Accordingly we worked with the regulator and depository authorities in Jordan to provide tailored solutions to meet unique needs in the securities services domain in Jordan.

Commercial Banking was launched in Jordan during the fourth quarter of 2015 in line with the group's strategy to support rapidly growing clients across our footprint. Our Commercial Banking clients are at the very heart of our bank's strategy, as they are a key driver of job creation and economic growth in our markets. We are committed to serving this segment, which drives investment and trade across our footprint, creating jobs and thus supporting the local economy.

Retail Banking at Standard Chartered Jordan focuses on providing customers

with the financial solutions that address their specific needs by offering innovative products and services; with a greater emphasis on innovation, quality, consistency, affordability and speed as key parts of creating a customer focused experience. Customers can spend their time doing more important things than queuing in bank branches or filling in too many forms.

Standard Chartered Online and Mobile Banking are innovative services that can be tailored to suit clients' precise banking needs. It gives our clients safe convenience, round-the-clock banking services ranging from day-to-day account transfer transactions to real-time valuable financial information.

Straight2Bank is the Bank's Suite of electronic channels for Corporate and Institutional Clients. It combines two key areas of our Cash Management and Foreign Exchange. Our clients benefit from an integrated workflow that allows them to achieve greater operational efficiency and gain more security and control over their transactions and processes.

Standard Chartered is also committed to making a positive social and economic impact in its markets by contributing to the community. GOAL' is the bank's global program that uses sport and life skills to transform the lives of adolescent girls. Since its launch in 2011, we have reached more than 15000 girls. Investing in the education of girls has the greatest impact on the economy as a whole. Within the Bank's global 'Seeing Is Believing' initiative, Standard Chartered Jordan launched in 2011 the Diabetic Retinopathy Program in Northern Jordan: the project helped to reduce the proportion of people visually impaired or blinded by Diabetic retinopathy in the Northern region of Jordan (Irbid).

We are also strong supporters for many local non-profit organizations in fields of health, education and environment. ■
